HCS approved hand-held testers for LAN cabling systems

HCS strongly recommends using Fluke Network hand-held testers for testing HCS installed cabling systems, but other brands may also be used. The full list is shown below.

- **FLUKE Networks:** DSX-5000, DSX-8000; CertiFiber Pro OLTS; OptiFiber Pro OTDR
- **Softing/Psiber Data:** WireXpert 500, 4500, MM2, SM2; FiberXpert OTDR 5000
- **VIAVI/JDSU:** NGC-4500 Certifier10G / Certifier40G, MM2, SM2; T-BERD/MTS-2000 & 4000
- **EXFO:** MAxTester 940/950 Fiber Certifier OLTS, FTB-720C OTDR
- **AEM:** TestPro CV100
- **TREND Networks:** LanTEK 6/6A/7/7G, LanTEK II/III 500/1000; FiberTEK III/IV, LanTEK IV / LanTEK IV-S certifiers

Other instruments may also be used, based on HCS written approval, provided they have 3rd party certificate for the relevant accuracy level.
