

### Description

HCS DataLight DIN Rail Mount Fiber Optic Splice Box series includes a wide range of high quality, state-of-the-art boxes for professional installations, needed to provide fully compliant fiber-optic cabling systems.

The range of products includes 12 ports multimedia boxes, compatible with a range of inserts for LC, SC, FC, ST (fiber optic connector) and more. Can support up to 24 Fiber Connection.

Proper use of HCS DataLight DIN Rail Mount Fiber Optic Splice Boxes, along with all HCS cabling components provide high-quality cabling systems which are supported by the Century™ Lifetime Warranty and the DoubleSafe™ QA program as a part of complete HCS cabling system.

### Benefits & Features

- Exceptional material properties and design - Providing a unique Century™ Lifetime Warranty.
- Light weight, small Boxes - Providing fast and easy termination.
- Detailed installation manual in English and Turkish - Providing clear and comprehensive instructions.
- Robust and installer-friendly design - Providing reduced installation and operating costs
- Unique DoubleSafe™ Quality Assurance Program - Providing lowest rejection rate available.
- Compact and ruggedly designed, made of aluminum (powder coated), and contains a clip for DIN RAIL mounting.
- Suitable for industrial applications.
