

### Description

HCS offers a full range of high quality, state of the art Face plates, Outlets and Surface-mount boxes for professional installations, needed to provide fully compliant copper and fiber-optic cabling systems.

HCS French (Legrand) Style face plates series includes a full range of high quality, state-of-the-art plates and boxes for perfect and professional installations, needed to provide fully compliant copper and fiber-optic cabling systems.

The range of products includes face plates, wall outlets, colored icons and station ID, all fitting into a single back box and compatible with a range of inserts for RJ-45 jacks, BNC, ST (fiber optic connector), F-Type (TV) connectors and more.

Proper use of HCS DataLink & DataLight Face Plates, Outlets and Back-boxes, along with all HCS cabling components provide high-quality cabling systems which are supported by the Century™ Lifetime Warranty and the DoubleSafe™ QA program as a part of complete HCS cabling system.

### Applications

Termination of twisted pair LAN and telephone cables, coaxial cables and fiberoptic cables.

### Benefits & Features

- ➔ Exceptional material properties and design - Providing a unique Century™ Lifetime Warranty.
- ➔ Box covers include covered labeling and snap-in colored icons - Providing elegant and professional outlet identification.
- ➔ Back-boxes include screws, cable ties and double-sides adhesive tape - Providing fast and easy termination.
- ➔ Detailed installation manual in English and Turkish - Providing clear and comprehensive instructions.
- ➔ Robust and installer-friendly design - Providing reduced installation and operating costs
- ➔ Unique DoubleSafe™ Quality Assurance Program - Providing lowest rejection rate available.
